

FOTSING WAFFEU VADINY PHERLIN

Web developer

SUMMARY

Versatile web developer with more than 3 years of experience in the design and deployment of high-performance web applications and business management software packages (logistics/transport). My expertise covers the entire stack, from backend architecture to complex and high-performance user interfaces and the adoption of best practices (clean code, design patterns).

Bachelor's Degree in Computer Science, Embedded Systems specialization

2014-2015 **Japoma High School**
High School Diploma in Science (Mathematics track)

PROFESSIONAL EXPERIENCE

Feb. 2024 – Apr. 2026 **ReactJS Developer**
NextGet Consulting <https://about.me/nextget-consulting>

- ✓ Designed and developed the **OctopusFX** logistics management software package (business ERP type) in React and TypeScript integrating Syncfusion for rich interfaces.
- ✓ Implemented role-based access management (RBAC) modules Developed logistics workflows: check-in, labeling, boarding, disembarkation, tracking and collection of packages.
- ✓ Implementation of a trip planning module (interactive calendar) with automatic synchronization of the status of drivers and vehicles.
- ✓ Continuous improvement of code quality through systematic reviews, design patterns and clean code best practices.
- ✓ Contribute to CI/CD pipelines on Azure DevOps to make deployments more reliable.
- ✓ Technical supervision of interns improving the efficiency of the team and participation in the planning of deliveries.

Tools : React, TypeScript, Axios, TailwindCSS, Redux, Syncfusion, scss, Git, Azure DevOps

LOISIRS

- ✓ Reading (comics, Novels ...)
- ✓ Programming
- ✓ Football & Basketball
- ✓ Anime & Manga
- ✓ Science-fiction movies

Oct. 2023 - Jan 2024

Front-end developer

Klapeers

<https://business.klapeers.com>

- ✓ Analyzed, modeled, and designed information systems based on micro services architecture.
- ✓ Maintained and reviewed code to ensure application performance and quality.

Tools : React, TypeScript, Axios, TailwindCSS

Oct. 2022 - Mai 2023

Web Development Trainer

IFPIA (International Professional Training Institute Algorithm)

<https://ifpia.xyz>

- ✓ Designed and implemented complete web platforms.
- ✓ Administered relational databases (MySQL, PostgreSQL).
- ✓ Taught frameworks such as Symfony and WordPress.
- ✓ Managed project dependencies with npm.
- ✓ Supervised Git/GitHub workflows and branching strategies.
- ✓ Created UML diagrams for system modeling.

Tools: ReactJS, NodeJS, PHP, Firebase, Axios, Bootstrap, Symfony, Git/GitHub.

SKILLS

- ✓ Frontend : **React, NextJs, JavaScript, TypeScript, TailwindCSS, Bootstrap, Redux, Syncfusion, HTML5, CSS3**
- ✓ Backend : **PHP, Symfony, NodeJS, API REST,**
- ✓ DBMS : **PostgreSQL, MySQL**
- ✓ DevOps & Tools : **Git/GitHub, Azure DevOps (CI/CD pipeline management and versioning), VsCode, Microsoft 365**
- ✓ Methodologies : **Agile/Scrum, CI/CD**
- ✓ Functional : **Business workflow modeling, RBAC (role and permission management), Resource planning**
